

Lead Sourcing & Outreach SOP

Core Philosophy: Outreach is EVERYTHING

The only activity that generates revenue is outreach. Every other task is secondary. Your entire operation must focus on sourcing and reaching out to creators daily. Knowledge gaps, technical questions, branding concerns—none of it matters if you're not doing outreach.

Priority Order:

1. Complete your 50-100 daily outreaches FIRST
2. Then educate yourself on anything else

Critical Stat: Contact a lead within 60 seconds of them showing interest = 391% higher close rate.

Lead Sourcing Strategy

Phase 1: Niche Research & SEO Stockpiling

Use strategic search triggers to build a pipeline of qualified leads across multiple platforms.

Primary Platforms:

- **TikTok** - Start broad ("Money making methods in 2024"), then niche down with creative SEO
- **Kajabi** - Search "best [niche] communities" (Dating Coaches, Life Coaches, E-Commerce, Trading, Crypto)
- **YouTube** - Use search bar with SEO triggers, filter by "Channels"
- **X (Twitter)** - Use search bar with SEO triggers, filter by "Latest" or "Accounts"
- **Whop.com** - Browse trading/course communities, sort by highest/lowest engagement
- **School.com** - Filter by niche communities (trading, fitness, etc.), work top to bottom

Phase 2: Deep Lead Mining Techniques

Once you identify a potential lead, go deeper:

1. **Find their Instagram** - This is your primary outreach channel
2. **Check their suggested accounts** - Similar creators in the niche
3. **Analyze their posts:**
    - Who's liking their posts?
    - Who's commenting?
    - Who's following them?
4. **Competitor following method** - Check other marketers' Instagram following lists, find creators they follow, then check those creators' suggested accounts

Repeat this process continuously. Without fresh leads, you have no exposure, no clients, no results.

Daily Outreach Protocol

Minimum Daily Target: 5-10 DMs

This is non-negotiable. Hit this number every single day before anything else.

Outreach Message Framework

Bad Opener Examples (Test what works):

- "Can you do a 1-1?"
- "So many testimonials 🤔"

After Opener:
Be direct and honest. Tell them you want to set them up on the path of online education—teaching people how to get the same results they've achieved and change lives.

Transition:
Ask if you can send them a free short video showcasing your expertise and how you can help them scale.

The Loom Video Approach

Video Length: 30 seconds to 1 minute maximum

Structure:

- Start with a quick intro.
- Deliver fast, highly informative content
- End with a CTA
- End with a SECOND CTA

Why this works: You're sending quality outreach with direct intent and no time-wasting. Even though you're not yet responsible to them, you're demonstrating value immediately.

Optional Voice Message (VM) Script:
"Hey, I've just sent you over that quick video. I do advise you watch it—I really had fun creating it specifically for you."

Follow-Up System

Every single morning when you wake up: Check DMs and follow up.

Follow-Up Cadence:

- Day 1: Initial outreach a normal message asking for a loom permission.

- Day 3: First follow-up (if no response) again asking for loom permission.
- Day 5: Second follow-up (if no response) Sending Loom.
- Day 7: Third follow-up (if no response)

Never stop at one message. Persistence separates winners from losers.

Remember: Content supports outreach, but outreach generates revenue.

Do. Your. Outreach. Every. Single. Day.

No excuses. No exceptions. 5-10 DMs minimum.
