

PULSIFY CLIENT SCALING SOP

SECTION 1 — WHEN A CLIENT IS READY TO SCALE

1.1 The Core Signal

The client is ready to scale when there is too much demand with limited supply.

When we see a lot of people asking to come in but we don't have the capacity to take them on that's when we will need to figure out ways to supply the demand.

SECTION 2 — WHAT SCALING MEANS AT PULSIFY

2.1 Price Scaling

We can scale up prices, going from $2,000 to $4,000 to $5,000.

2.2 Delivery Model Transition

We can start transitioning to a DWY service where there'll be pre recorded modules with a singular weekly calls.

2.3 Quality Maintenance

However to deliver the best service and retain and maintain quality we can only service a number of students to make sure that the product and the creator's reputation doesn't get hurt.

SECTION 3 — HOW WE SCALE CLIENTS (2 MAIN ROUTES)

3.1 Route 1: Organic Content

Organic content where valuable videos are booming and people start opting in a lot.

3.2 Route 2: Paid Ads

Paid ads where we are purposeful about those leads to mainly convert into a specific funnel like a challenge funnel or a webinar.

SECTION 4 — WHAT WE CHANGE WHEN SCALING

4.1 Price Adjustment

I mainly focus on changing the price by upping it by either a thousand or 2 thousand.

4.2 Lifestyle Content Integration

Once the creator has the lifestyle we can start selling via the lifestyle but not degenerate flexing.

SECTION 5 — PAID ADS FOR SCALING

5.1 When We Introduce Paid Ads

We introduce paid ads depending on how fast the client wants to see results.

If they're a bit behind on organic content then we can leverage profile ads to get them more recognized and get them sales asap.

5.2 Prerequisites For Running Ads

It would only make sense to them if they understood the budget and after we've made some money from the organic audience.

The client needs to be fully aware that the ads will also be in the testing phase; where we'll need a lot of pieces of creatives to work on before we can find the winning piece that will boom the business.

5.3 The Ads Philosophy

It's just a game of testing and throwing money until something works but obviously with a backed strategy so that nothing is random.

SECTION 6 — CONTENT EVOLUTION WHEN SCALING

6.1 Long Form Takes Priority

Content changes mainly on the long form but the short form has no other option but to change with them too.

It all just boils down to the long form and it's quality, since long form content is king and irreplacable.

6.2 Team & Strategy Upgrades

We will create better educational TOF videos for new people to come in using the help of hiring video editors and a content strategist.

6.3 Short Form Alignment

Short form will become more meaningful when the youtube is being dialed.

SECTION 7 — WHAT STOPS CLIENTS FROM SCALING

7.1 The Real Limiters

Insecurity.

Fear of losing money.

Fear of operating in a murky vicinity.

Not having a clear path on where this is going.

Little belief in their offer.
